Richard went camping with his family. At night he woke up because he wanted to use the restroom in the camp site. While he was walking back to his tent, he saw a light in the sky. It was too bright to be a star. It came closer to him and flew away so quickly. Richard totally panicked and could not move at all. He could not believe his eyes. He had never seen anything like that before.

The next day, he told his family about what had happened. No one believed him except his little brother, Kevin. They searched the internet and found out that some other people also said that they had seen UFOs in that camp site. The camp site is known as a popular spot where UFOs have appeared several times before. Richard believes that what he saw was a UFO. However, many of his friends say UFOs do not exist. They are a hoax.
